

Product data **wedge 30°** CE

all up® is Levabo®'s new and environmentally friendly inflatable disposable positioning cushions. The product range is developed in close cooperation with leading wound nurses and ensures optimal comfort and hygiene in the prevention and treatment of pressures sores.

The pressure relieving positioning cushion

Product description

Positioning cushion for the lateral position. Ensures a stable position at 30°, and the wedge shape is fixed by a flap that is pushed underneath the patient.

Even with the slightest movement, the cushion will stimulate the microcirculation of the skin, which optimises circulation.

The cushions are effective for the prevention and treatment of pressure sores on the most exposed areas such as heels, hips, elbows, shoulders, back, etc.

These qualities makes all up® an optimal positioning cushion when the bedbound need comfortable and pressure relieving mattresses.

all up® is made of non-woven material, which makes the cushion soft, skin-friendly, heat and moisture absorbent, comfortable and elastic.

Advantages:

- Designed for the prevention and treatment of pressure sores in the most exposed areas such as heels, hips, elbows, shoulders, back, etc.
- The cushions are multi-functional which means that the same product can be used for many different positions, optimising the prevention and treatment of pressure sores.
- Single-use ensures high hygiene.
- Simple and easy to use. all up® is inflated prior to use and adapted according to the individual's anatomy and needs.
- Good comfort.
- Soft, skin-friendly, heat and moisture-absorbent material.
- Space saving in the depot and liberating staff resources.
- Delivered in clean, sealed and slim packaging incl. inflation device.
- Tested and approved in accordance with ISO 10993-10:2010 skin irritation and sensitisation.
